Chairman's Welcome

Dr. Erich Stoeger
Chairman & CEO
EurAxxess AG

As Chairman and CEO of EurAxxess, it is my responsibility to set our company's goals and to outline the strategies needed to obtain these objectives. These goals require that we employ and associate with quality and competent professionals worldwide. I feel that our Company has an excellent complement of staff and associates, on a local and international level.

During my many years of banking and financial consulting, I have never seen the amount of interest that there is today in areas such as offshore investing, financing, tax planning and traveling. Some of this interest, I believe, is brought about by the concerns that many people have about the financial circumstances of their home country and other countries around the world.

No matter what your concerns are, I believe it is important that each of us takes responsibility for our financial affairs. By contacting our Company, you have taken an important step toward planning for the future.

EurAxxess is the result of a joint venture, evolved to assist our current and future clients in all states of enjoying the fruits of their labours.

*Lives of great men all remind us,
We can make our lives sublime,
And departing, leave behind us,
Footprints on the sands of time.*

Longfellow

Building on our management team's long years of financial services to affluent individuals, our focus is secure, convenient and private, as governments become more and more aggressive in the control of their citizens, reaching far beyond the borders of their own countries.

Private asset management has become an expected part of a successful individual's life. One would be foolhardy not to address the hidden potential assaults on wealth and lifestyles. Accidents, environmental issues, taxation and estate matters, can devastate most estates with one hit.

Let us help you design the strategies and structures that will provide long-term safety coupled with attractive growth perspectives.

EurAxxess provides convenient access to a global spectrum of top quality financial advisory, investment and custodial services. Our philosophy is to focus on low-risk, wealth preservation investment strategies that also provide adequate levels of growth and capital gain.

EurAxxess is uniquely qualified to make it easy for you to implement an enhanced and effective global investment strategy that satisfies your requirements regarding asset protection, safety and privacy.

I wish you the best success throughout your offshore journey and hope that EurAxxess and our associated group of companies and experts can help you along the way. We are here to answer questions, address concerns, build on your dreams.
